

# MASTERCORP NEWS BULLETIN

*“I love the new ETA system. It really reduces administrative work, which gives me more time out in the field with my staff.”*

*–Tonya L. McMahan, Executive Housekeeper*

## NEW ETA & EFFICIENCY SYSTEMS HELP ASSURE CLEAN ROOMS ON TIME!

Always looking to bring efficiencies to the housekeeping process, MasterCorp has developed ETA, a new **electronic time accumulation** system that not only records real time, but saves it. With a click of a button, ETA replaces clunky paper systems and mindless time clocks. Additionally, this savvy system provides the information to easily **manage time and resource allocation** by job category. ETA is just one of many timeliness tools employed by MasterCorp. Other systems include:

- ~ **Inventory management** system that has virtually eliminated out-of-stock occurrences
- ~ **Linen and terry management** system that projects inventory availability and par requirements
- ~ **Electronic on-boarding** system for efficient new-hire processing
- ~ **Tracking** application to forecast staffing level needs based on historical and seasonal data

When you call MasterCorp, you can expect magical results,  
because resort housekeeping is all we do!

To see if you qualify, call **800.489.1718 x4403**

The tools for timeliness: another great reason to partner with MasterCorp,  
*The Leader in Resort Housekeeping*

*a passion for cleanliness.*
